THE EXPERIENCE

The Prairie Fire Experience workshop is geared toward the beginner to intermediate photographer. One of the most important aspects of the workshop is a focus on an individual hands-on learning experience. The workshop will begin at 4:30p.m. on Friday, March 30th and conclude on Sunday, April 1st at 2:00pm. We will cover a comprehensive overview of digital photography techniques with an emphasis on low light and prairie fire photography. Also included will be a presentation on digital editing techniques.

Early spring is an exciting time in the Flint Hills. On any given day one can come in contact with all of the elements: wind, water, air or fire. The Flint Hills become a treasure trove of photographic opportunities for the nature photographer.

Join Edward C. Robison III on a photographic journey into the Flint Hills. For the Spring of 2012 Edward is offering only one workshop in the Flint Hills, The Prairie Fire Experience.
